What is Uinta?

We are the experts in bags and accessories – with a design team that is on point with trends, designs, and creativity.

Why Customers Love Us.

Since its inception, Uinta Design has forged valuable partnerships with exceptional distributors, enabling us to collaborate on projects with brands such as Peloton, Mr. Beast, Dude Perfect, Urban Outfitters, HOKA, and many others.

These collaborations have propelled our brand to new heights, showcasing our ability to deliver top-notch products and services. With options for every occasion and budget, **our goal is to simplify the process of designing and manufacturing custom accessories.**

CUSTOM PROCESS

- 1 Mockup Request**

Begin by sharing your design concepts or opt for one of our initial silhouettes as a starting point. Provide any specific material or design preferences, as well as details on the required quantity and timeline. Additionally, ensure you send us your brand guidelines and a vectored logo.
- 2 Sample Approval**

Evaluate your personalized mockup and provided estimate pricing with your clients. Choose an item for sampling, and expect to receive your sample within 3-4 weeks. You can make any necessary adjustments, request a second-round sample, or proceed directly to production.
- 3 Production & Shipping**

Production on average takes 45-60 days. We ship by either airfreight (with a shipping time of 1-2 weeks) or by boat (with a shipping time of 4-5 weeks).

Incorporating SUSTAINABILITY

Our selection of products made from 100% eco-friendly materials is always growing.

Choose materials made from recycled water bottles, coffee beans, cork, natural cotton, and other sustainable materials.

Our commitment to the planet

We are committed to adding new, unique, and sustainable materials as options for our distributors. We pride ourselves on using suppliers and manufacturers that actively source phthalate, lead, and cadmium-free materials.

We prioritize quality and safety by conducting thorough third-party testing upon request, especially from trusted sources in Asia, to verify compliance with international standards and regulations.

Our factories are GCL certified and conform to the Global Recycled Standard (version 4.0).

We regularly assess our processes and explore new innovations and practices that align with our values. By staying up-to-date with the latest advancements in sustainable design and manufacturing, we aim to lead by example and inspire positive change in our industry.
